Photography for Beginners

COMPOSITION

LESSON THREE TASK

PRACTICAL TASK

For this task ensure you have set your camera to FULL MANUAL mode

Check your camera's manual if you are unsure how to change to this setting. Also check your manual to discover how to access your EV meter if it is not immediately apparent

You can choose your own ISO, Aperture and Shutter speed settings for this task.

Take the following three photographs, going through the mental checklist for all four guidelines we have talked about in regards to composition

(Rule of Thirds, Perspective, Background, Filling the Frame)

- A portrait of someone
- A product photo on the floor
- A plant in a garden

Good luck!

Upload your submission with your observations to the [Makers' Academy Students](#) group on facebook for feedback
